

# Non-Magnetic Connectors

## Multi Channel Module Connector

### MRF14

- Signal and coaxial units can be freely combined as a module connector

Coaxial Unit: 4 and 8 Channel  
Signal Unit: 14pos. Max./unit

- Frequency :DC to 1GHz
- High Mating Durability (60,000 times)
- Low Insertion Force

## Multi Channel Coaxial Connector

### MRF18

- 8 Channel
- Frequency: DC to 2GHz
- Small Size and Light Weight
- High lock strength and resistance to cable pulling
- Soldering for Both Center and Outer Conductor
- Flow Mounting or Manual Soldering for PCB Mounting
- Applicable Cable :  $\varnothing$ 1.13-1.8mm

## Single Channel Coaxial Connector

### H.FL/S

- Frequency: DC to 3GHz
- 50 $\Omega$
- Mating Durability: 50 times
