HIROSE ELECTRIC CO., LTD

Impacts of the earthquake occurred off the Coast of Fukushima Prefecture
after midnight on Saturday, February 13, 2021

We inform about impacts of the earthquake struck off the coast of Fukushima Prefecture on February 13, 2021 at 11:08 p.m. JST.

Impacts on Production Activities

- In Japanese factories: Tohoku Hirose Electric, Koriyama Hirose Electric and Ichinoseki Hirose Electric, the buildings were partially damaged, and some production facilities and shelves were overturned, but the damages were slight and there would be no significant impacts on production activities from today.

- As for our cooperative companies, although there was a blackout and minor damages, the overall damages would be slight. We are currently confirming the details of the damages on our cooperative companies.
